100% **ECO FRIENDLY**

We believe in ethical and smart shopping. Being mindful today guarantees a better tomorrow.

REDUCE. REUSE. RECYCLE.

NATURAL JUTE BAGS

Jute comes in a natural golden brown colour which is the most popular option.

Natural jute goes well with dyes and prints. The natural brown colour provides an attractive glow to the bags. These bags can be used with contrast colour handles and panels.

DYED JUTE BAGS

Jute fabric are dyed using AZO free dyes.

Different colors of jute can be combined, resulting in an attractive, two-toned jute bag. These can be PMS-matched, subject to minimum dye quantity requirements. The bag handles in cotton can also be dyed to match the bag body. Dyeing adds to the production time by 1-2 weeks. At Efthalia, we hold a selection of jute colours in stock for normal production lead times.

NATURAL JUCO BAGS

JuCo is a blend of jute and cotton. It has a natural beige colour, and these bags can be laminated or starched for strength and shape. JuCo is less fibrous than jute but still durable and long-lasting. Internal lamination is also possible to improve strength. JuCo bags can also be customised in terms of dyes, prints, and handles. Several techniques such as silk screen, process, and transfer printing are available.

NATURAL COTTON BAGS

Cotton bags are made of natural cotton fabric (90gsm or 3oz - 180gsm or 6oz). These are available in all the usual styles and can be customised. Cotton or calico bags are durable, fashionable and versatile. Unlike cotton, calico is unbleached and not dyed. In their original form the natural cream colour is timeless, and provides a good base for printing.

COTTON OR CANVAS PP BOTTLE BAGS

Bottle bags come in different fabrics such as cotton and canvas. You can choose options allowing space for up to six bottles. For options with multiple bottles, the inside partition ensures the safe carriage and transport of the bottles by keeping them upright and thereby, avoiding spillage. PP lamination makes them waterproof. Several options for handles are available. For example, rope, drawstring, cane, or padded. Drawstring option is suitable only for single bottle bags. You can customise the size, dyes and prints.

COLOURS

Pantone[®] Matching System (PMS) is a universal colour matching system to ensure accuracy and consistency, regardless of the printing process used. Each colour option is premixed and has an ID.

Please note that in very small batches and/or different fabrics, indicated PMS are closest matches and may slightly vary. However, this can be avoided in large orders.

FREQUENTLY ASKED QUESTIONS

1. How do I get samples?

Please contact us if you need samples. We require your international courier account number. Eg. FEDEX/UPS/DHL/TNT or others.

2. What is the minimum order quantity?

Minimum order quantity is 1000 units or 3000 USD, whichever is higher. However, we are open to negotiations, in case you require a smaller amount.

3. Can my design/logo be printed on the bags?

Absolutely! You can order bags with your chosen design or logo, which you can send to us via e-mail. These designs can also be embroidered, for an extra charge.

4. Are the bags customisable according to my requirements?

Yes, all our bags are customisable to meet your needs.

5. Is it possible to order the bags in Pantone shades?

Yes, our bags can be printed or dyed with any colour of your choosing. However, Pantone Matching System (PMS) colours on the bags can vary depending on the fabric.

6. What information must I provide to get a quotation?

We require the following from you in order to provide a quotation:

- (I) The item code of the bag
 - (II) The size of the bag
 - (III) The colour of your choosing as well as the specifications for printing
 - (IV) Order quantity
 - (V) Specific packaging instructions

FREQUENTLY ASKED QUESTIONS

7. How are the goods packaged?

We pack the goods in corrugated cardboard cartons, however, we are open to accommodating your requests.

8. What are the shipping options and how long do they take?

The options include the following:

(I) Sea – this is the cheapest option, but takes around 5 weeks. You require a customs broker to clear the goods at the port.

(II) Air – this is expensive but your goods arrive within 4–6 days. You require a customs broker to clear the goods at the airport.

(III) Door-to-door courier – this is the most expensive option, but you do not need to appoint a customs broker. The courier company will deliver the goods to your address.

Please note that any import/customs duty fee is borne by you.

9. What payment options are available?

We accept Wire Transfers and Irrevocable Letter of Credit. We do not accept credit card payments.

10. What quality assurances do you provide?

Quality and trust are the foundation of our company. However, we are happy to accommodate any quality assurance checks that you might need.
